

^ Assignment Overview

This quiz is designed to help you think more strategically about how prompts shape AI responses. You'll be shown an AI-generated output and then asked to choose which prompt most likely produced it. The goal is not only to pick the correct answer but also to notice how clarity, structure, and context affect what the AI delivers. Think of it as “reverse engineering” the prompt.

1. **Here's a healthy dinner idea: grilled salmon with a side of roasted vegetables and quinoa. It's quick to prepare, nutritious, and balanced.**

1 point

- ☐ List famous restaurants in Seattle.
- ☐ Write a haiku about salmon.
- ☒ Suggest a healthy dinner recipe that is quick to prepare.

2. **Once upon a time, a small robot dreamed of painting the stars. Every night, it climbed the tallest hill and traced constellations in the sky with its light.**

1 point

- ☐ Give a step-by-step guide to fixing a lightbulb.
- ☒ Write a short story about a robot with an unusual dream.
- ☐ Explain how constellations are formed.

3. **The three laws of motion are: an object in motion stays in motion, force equals mass times acceleration, and for every action there is an equal and opposite reaction.**

1 point

- ☐ Write a poem about gravity.
- ☐ Describe the history of calculus and Newton's role in its development.
- ☒ Explain Newton's three laws of motion in simple terms.

Graded Assignment • 30 min

Due Jun 1, 11:59 PM PDT

4. To improve time management, try using a calendar app, breaking work into smaller tasks, and setting reminders to stay on track.

1 point

- ☐ Explain how computers process time data.
- ☒ Give me three practical tips for managing my time better.
- ☐ Write a poem about clocks and calendars.

5. Photosynthesis is the process by which plants use sunlight, water, and carbon dioxide to produce food in the form of glucose.

1 point

- ☐ List the top five houseplants for low light conditions.
- ☐ Write a story about a tree that talks.
- ☒ Summarize how photosynthesis works in one sentence.

6. The capital of Japan is Tokyo, a city known for its blend of tradition and modern innovation.

1 point

- ☐ Write a travel itinerary for a week in Tokyo.
- ☒ What is the capital of Japan?
- ☐ Explain how Japanese architecture blends tradition and modern design.

7. Your meeting agenda could include: project updates, discussion of challenges, brainstorming solutions, and assigning next steps.

1 point

- ☐ Write a story about teamwork in a corporate office.
- ☐ List three famous business leaders and their achievements.
- ☒ Help me draft a meeting agenda for my project team.

8. Here's a short poem:

1 point

Rivers carve valleys,

Mountains whisper to the clouds,

Earth tells its story.

- ☐ Explain how rivers form valleys.
- ☐ List the tallest mountains in the world.
- ☒ Write a haiku about nature.

9. The quadratic formula is $x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$. It is used to solve quadratic equations of the form $ax^2 + bx + c = 0$.

1 point

- ☐ Write a poem about algebra.
- ☒ Explain the quadratic formula in simple terms.
- ☐ List three careers that use mathematics.

10. A SWOT analysis looks at strengths, weaknesses, opportunities, and threats. It helps businesses evaluate internal and external factors before making decisions.

1 point

- ☐ List the biggest tech companies in 2024.
- ☐ Write a fictional story about a struggling company.
- ☒ Explain what a SWOT analysis is and why businesses use it.

Your grade: 100%
