

^ Assignment Overview

This short quiz will help you practice choosing the right AI tool for the right task. You’ll be given a few everyday scenarios and asked to match each one with the type of generative AI model that would be most effective. The goal is not just to pick the correct match, but also to think about *why* that tool makes sense.

1. **Scenario:**You are organizing a community event and want a poster that looks eye-catching and professional.

1 point

Which model should you use?

- ☐ A large language model
- ☒ A text-to-image model like Stable Diffusion or DALL·E
- ☐ An audio generation model like ElevenLabs

2. **Scenario:** You have a long research article on climate science and need a concise summary for a presentation.

1 point

Which model should you use?

- ☒ A text summarization tool built on a transformer-based language model
- ☐ A voice cloning tool
- ☐ An image generation model

3. **Scenario:** You are creating an online course and want background music that is calm and instrumental.

1 point

Which model should you use?

- ☐ A text-to-image model
- ☐ A diffusion-based image model
- ☒ An audio generation model like Suno

4. **Scenario:** You're preparing for an exam and want a set of digital flashcards with key terms and definitions to study.

1 point

Which model should you use?

- ☒ A large language model that can generate structured text
- ☐ An audio generation tool
- ☐ A text-to-image model

5. **Scenario:** You need to translate a customer email from Spanish to English quickly and accurately.

1 point

Which model should you use?

- ☐ A generative image model
- ☒ A transformer-based language model trained for translation
- ☐ A music generation tool

6. **Scenario:**You are brainstorming startup ideas and want the AI to propose creative business names along with short taglines.

1 point

Which model should you use?

- ☐ An audio generation model
- ☒ A large language model like GPT or Claude
- ☐ A diffusion-based image model

7. **Scenario:** You want to generate a realistic photo of a futuristic city skyline for a science fiction story you’re writing.

1 point

Which model should you use?

- ☐ A transformer-based language model
- ☒ A text-to-image model such as Stable Diffusion or DALL·E
- ☐ An audio synthesis model

8. **Scenario:** You need to create a professional-sounding voice over for a training video.

1 point

Which model should you use?

- ☐ A large language model
- ☒ An audio generation tool like ElevenLabs
- ☐ A text-to-image model

10. **Scenario:** You want a visual diagram that shows the steps of how generative AI processes text into an output.

1 point

Which model should you use?

- ☐ A large language model
- ☒ A text-to-image model capable of producing infographics
- ☐ An audio generation tool

^ Assignment Overview

This short quiz will help you practice choosing the right AI tool for the right task. You'll be given a few everyday scenarios and asked to match each one with the type of generative AI model that would be most effective. The goal is not just to pick the correct match, but also to think about *why* that tool makes sense.

1. **Scenario:**You are organizing a community event and want a poster that looks eye-catching and professional. 1 / 1 point

Which model should you use?

✔ Nice work

2. **Scenario:** You have a long research article on climate science and need a concise summary for a presentation. 1 / 1 point

Which model should you use?

✔ Nice work

3. **Scenario:** You are creating an online course and want background music that is calm and instrumental. 1 / 1 point

Which model should you use?

✔ Nice work

4.

Scenario: You’re preparing for an exam and want a set of digital flashcards with key terms and definitions to study.

Which model should you use?

✔ Nice work

1 / 1 point
5.

Scenario: You need to translate a customer email from Spanish to English quickly and accurately.

Which model should you use?

✔ Nice work

1 / 1 point
6.

Scenario:You are brainstorming startup ideas and want the AI to propose creative business names along with short taglines.

Which model should you use?

✔ Nice work

1 / 1 point
7.

Scenario: You want to generate a realistic photo of a futuristic city skyline for a science fiction story you’re writing.

Which model should you use?

✔ Nice work

1 / 1 point
8.

Scenario: You need to create a professional-sounding voice over for a training video.

Which model should you use?

✔ Nice work

1 / 1 point

9. **Scenario:** You're preparing a workshop and want a short quiz that checks learners' understanding of basic AI terms.

1 / 1 point

Which model should you use?

✔ Nice work

10. **Scenario:** You want a visual diagram that shows the steps of how generative AI processes text into an output.

1 / 1 point

Which model should you use?

✔ Nice work
